ELLIS
REPUBLICAN FOR CONGRESS

Dear Friend

Brian Ellis is running in the Republican primary for the U.S. Congress in the 3rd District. His campaign promises *Better Representation for a Brighter Future*. We believe him and support him. We know the country and the people of the 3rd District can have a healthy economy and a better future. We ask for your support of Brian Ellis because we are confident he will help the country move forward.

Our current Congressman voted **against** the final version of the Paul Ryan Budget that would cut \$5 trillion in spending – and he was the only Republican from Michigan to do so. He refused to vote in favor of the Keystone Pipeline. He voted **against** a 20% tax cut that would allow small businesses to create and retain jobs here in Michigan. Just this month, he and a small group of like-minded legislators rejected Speaker Boehner's plea to pass legislation requiring Congress and the President be subject to Obamacare, and put on hold the special new tax on medical equipment. This irresponsible action hurt over 50 great West Michigan businesses and was part of the chaos that led the nation to the edge of default. We could share a much longer list, but we trust you get the point.

Some would say that Congressman Amash has been ineffective. We'd say just the opposite: He and others have effectively nullified the Republican majority in the U.S. House. Their actions gave the GOP a black eye while simultaneously reenergizing the Obama administration.

Two weeks ago Brian announced that he would seek the Republican nomination for Michigan's 3rd District House seat. He will return Conservative Republican representation to this district. His deep roots in West Michigan, business background, ability to get things done, record of public service and resolve to represent the values of our community distinguish him from Justin Amash. Brian will be a great Congressman.

The incumbent Congressman will have vast resources at his disposal. Brian Ellis will need lots of help to get his message out to the voters of the 3rd. Once they hear his message, they will know that a Better Representative for a Brighter Future is possible.

Please join us. We need your leadership. We need your financial support.

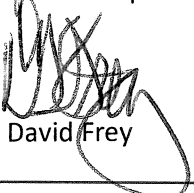

Signed,

John Canepa

J.C. Huizenga
